Title: Electric Motor Having Armature Coated With A Thermally Conductive Plastic
Attorney Docket: 0275Y-000431.CPA

Commissioner of Patents and Trademarks
Washington, D.C. 20231

PRELIMINARY AMENDMENT

Sir:

Prior to examining the above-referenced application please amend the application as follows and consider the remarks set forth below.

IN THE CLAIMS

Please amend the claims in accordance with the following rewritten claims in clean form. Applicant includes herewith an Attachment for Claim Amendments showing a marked up version of each amended claim.

16. (Amended) A method for forming an electric motor, said method comprising:
- providing a stator;
 - providing an armature having a plurality of magnet wires wound therearound;
